Objective

I am a motivated student with strong proficiency in React and TypeScript, along with a solid foundation in HTML5, CSS3, JavaScript, MySQL, and SQL Server. I also have knowledge of Java and Python. I build real-world projects to sharpen my full-stack skills and am currently learning the .NET Framework to expand my backend capabilities. I am eager to apply my skills in a professional environment.

Area of Interest

- **Web Development** (Frontend, Backend, Web Framework)
- **Data Analytics** (Data Visualization, Machine Learning)

Education:

Bachelor of Technology – Artificial Intelligence and Data Science

Dr. Mahalingam College of Engineering and Technology, Pollachi

Affiliated to Anna University | **CGPA: 8.54** till 4th semester

2023 – 2027

Higher Secondary Certificate

Sri VRV Matriculation Higher Secondary School, Perampattu

State Board of Tamil Nadu | **Percentage: 89.3%**

2022 – 2023

Secondary School Leaving Certificate

Sri VRV Matriculation Higher Secondary School, Perampattu

State Board of Tamil Nadu | **Completed**

2020 – 2021

Skills

Technical Skills

- **Programming Languages:** Java, Python, C, TypeScript
- **Web Technologies:** HTML5, CSS3, JavaScript
- **Database Management:** MySQL, SQL server
- **Frameworks:** React, .NET

Soft Skills

- **Communication:** Effective in conveying ideas clearly and professionally
- **Problem-Solving:** Strong ability to analyze issues and develop practical solutions

Project

Convix – Real-Time One-to-One Chat Application

December 2025

Role: Full Stack Developer (MERN Stack)

- Developed a real-time one-to-one chat application inspired by WhatsApp using the MERN stack, featuring OTP-based authentication, secure user sessions, and private messaging
- Implemented advanced messaging features including reply, forward, delete for me/everyone, image & video sharing, and voice messages with optimized backend APIs and real-time updates

SmartPrice – ML Driven Fruit and Vegetable Price Prediction via Image Inspection

November 2025

Role: Machine Learning Developer

- Built an ML model that analyzes fruit and vegetable images to detect ripeness and damage using CNN-based feature extraction and predicts market price with improved accuracy.
- Developed a complete workflow including data preprocessing, model training/evaluation (RMSE, accuracy), and integrated the model with a backend API for real-time price prediction from user-uploaded images.

Internship

Conprg Technologies – Full Stack Development Intern, Chennai

12th June 2025 – 26th June 2025

- Developed features using .NET, React, and TypeScript for both frontend and backend modules
- Designed responsive UIs and integrated APIs with Microsoft SQL Server
- Gained hands-on experience working in an Agile team environment

Certifications

- Certified in LinguaSkill English Language Test (CEFR B1 Level) – Cambridge Assessment English (30th May)
- Completed NPTEL course on Soft Skills with a score of 61%, attended on 27th October 2024
